

NMAC KPI

Editor guide with screenshots

North Shore Medical Center · Bitrix24

Purpose & sign-in

NMAC KPI shows practice performance: **this year** vs **last year** vs **goals**. Open it from **Bitrix24**; you sign in with your Bitrix email. If you see **Access not available**, ask an admin to add you as **Editor**. Check your name and role at the bottom of the sidebar.

Each section below matches **one screenshot**. Follow the steps, then find the same labels in the photo.

FIGURE 1

View charts (read only)

Where in the app: Left sidebar → NMAC master KPI → e.g. Performance overview (other chart pages work the same way)

- 1. Use these pages to **review** numbers — you do not enter data here.
- 2. Change **FY year** and filters at the top right.

In this screenshot:

- Left menu = chart sections (Performance overview, Visit volume, etc.)
- Large chart = weekly comparison (this year, last year, target)
- Top right = year selector (e.g. FY 2026)

FIGURE 2

Data entry — weekly KPIs

Where in the app: Left sidebar → **Administration** → **Data entry**

1. Choose **KPI** and **Year** at the top.
2. Enter **this year** and **last year** for each week.
3. Click **Add week** if needed, then **Save**.

KPI: Total Appointments Year: 2026 + Add week Save changes

Use **Add week** to add another row for this KPI and year. Leave a cell blank if you don't have a number yet. Click **Save changes** to store everything online.

Week	This year	Last year
Week 1	323	299
Week 2	566	484
Week 3	581	494
Week 4	645	439
Week 5	612	507
Week 6	598	400
Week 7	536	482
Week 8	548	486

Target for this KPI: 508

In this screenshot:

- Highlighted **Data entry** in the sidebar (under Administration)
- **KPI** and **Year** dropdowns at the top
- Table rows = Week 1, Week 2, ... with two number columns
- **Save** button — click when finished

FIGURE 3

NMAC master — Targets (goals)

Where in the app: Administration → NMAC master → Targets tab (selected)

1. Under **Applies to**, choose **Full year** or one month.
2. Enter target numbers in the list.
3. Click **Save targets** at the bottom.

Targets for 2026

FY row is the default for every month. Choose a month to override goals for that month only (charts and data entry use the effective target per calendar month).

Applies to: Full year (default) ▼

Filter KPIs by name or id...

- Operations 1 KPI
 - Clinic Productivity
PRODUCTIVITY
90 %
App default: 90 - Gate KPI
- Volume 3 KPIs
- Scheduling 4 KPIs
- Calls 2 KPIs
- Finance 5 KPIs

Save targets Cancel

In this screenshot:

- **Targets** tab is active (not Monthly actuals)
- **Applies to** dropdown = Full year or a single month
- KPI list with target values + **Save targets**

FIGURE 4

NMAC master — Monthly actuals

Where in the app: Administration → NMAC master → Monthly actuals tab (selected)

1. Click the **Monthly actuals** tab.
2. **Choose the month** (month buttons/chips).
3. Enter **this year** and **last year** for each KPI.
4. Click **Save month**, then refresh Bitrix to update charts.

The screenshot displays the 'Monthly actuals' tab in the NMAC master application. It features two main sections: 'NURSING' and 'COMPLIANCE'. Each section contains several KPI cards. Each card has a title, a target value, and input fields for 'THIS YEAR' and 'LAST YEAR'. Below the input fields, there is a label '% vs last year: -'. At the bottom of the form, there are two buttons: 'Save month' and 'Clear month'.

NURSING

- ECG / EKG Completed**
Target (this year): ≥ 180
THIS YEAR: LAST YEAR:
% vs last year: -
- Spirometry Tests**
Target (this year): ≥ 20
THIS YEAR: LAST YEAR:
% vs last year: -
- Annuals Supported (Nursing)**
Target (this year): ≥ 150
THIS YEAR: LAST YEAR:
% vs last year: -
- RN Visits (CPT 99211)**
Target (this year): ≥ 58
THIS YEAR: LAST YEAR:
% vs last year: -

COMPLIANCE

- Patient Survey Score**
Target (this year): ≥ 4.7
THIS YEAR: LAST YEAR:
% vs last year: -
- SOP Compliance**
Target (this year): $\geq 100\%$
THIS YEAR: LAST YEAR:
% vs last year: -
- Staff Engagement**
Target (this year): $\geq 80\%$
THIS YEAR: LAST YEAR:
% vs last year: -

In this screenshot:

- **Monthly actuals** tab is active (not Targets)
- Title: "Monthly this year / last year"
- Month selector and data grid with two columns per KPI
- **Save month** button at the bottom of the form

FIGURE 5

Settings

Where in the app: Left sidebar → **Administration** → **Settings**

1. **Account:** enter first/last name → **Save name**.
2. **Clear cache:** if charts look wrong after saving → **Clear cache** → confirm → refresh Bitrix.
3. Use **Sign out** on a shared computer.

In this screenshot:

- **Account** card — your name and role
- **NMAC charts — Clear cache** section with Clear cache button
- **Sign out** at the bottom of Account

Good habits

- Always **Save / Save targets / Save month** — nothing auto-saves.
- One person per week or month when possible.
- After big updates, open a chart (Figure 1) to verify numbers.
- Charts still wrong? Use Figure 5 → Clear cache → refresh.

If something goes wrong

- **No access** — admin adds your Bitrix email as Editor.
- **Missing Data entry or NMAC master** — confirm Editor role.
- **Save failed** — read the message and try again.
- **Wrong charts** — Figure 5, Clear cache, refresh.
